

Health & Safety Policy **DH Associates Limited**

General Statement of Policy

It is the policy of DH Associates Ltd to comply with the terms of the Health and Safety at Work etc Act 1974 and subsequent legislation and to maintain a healthy and safe working environment. Our aim is to minimise the number of instances of occupational accidents and illnesses and ultimately to be an accident free workplace.

All employees will be provided with equipment, information, training and supervisions as necessary to implement the policy and achieve the stated objective.

DH Associates Ltd recognises the duty to protect the health and safety of all visitors to the company, including contractors and members of the public.

DH Associates Ltd is committed to the health and safety of all learners. We will work in partnership with learning funders and employers to promote and share best practice and will support the raising of standards of health and safety in the learning environment and the workplace. All learners with the company will be informed of the Health and Safety Policy for Learners which is included in the learner handbook. Appendix 1

Whilst doing all in its power to ensure the health and safety of employees, it is recognised that health and safety at work is the responsibility of each individual associated with the company. It is the duty of each employee to take reasonable care of their own and other people's welfare and to report any situation which may be a threat to the well being of any other person.

All injuries, however small, sustained by a person at work must be reported to their line manager. Accident records are crucial to the effective monitoring and revision of this policy.

This policy will be continually monitored and updated, particularly when changes in legislation occur.

The arrangements for implementing the policy and the personnel responsible are detailed below.

Jueliya Mc Mahon Managing Director Care Tech Learning Services & DHA

Safety Personnel

The person for final and overall health and safety in DH Associates Limited is, Jueliya Mc Mahon Managing Director.

❖ Consultation

Consultation with employees is important to effective health and safety management. Team meetings are held monthly and this will be the forum for information to be communicated and for employees to be consulted on health and safety. These meetings will be used to assess the effectiveness of the policy. An annual review of the health and safety policy and learning health and safety policy will be held as part of the business planning process, November of each year.

DH Associates can also access advice from specialist health and safety advisors within Care Tech PLC, parent company.

Communication

DH Associates Limited will promote a health and safety culture and communicate with employees the importance of a safe working environment. This policy will be reinforced through supervision, oral and written directives.

All employees are expected to co-operate with safety representatives and to accept their duty under this policy. Disciplinary action may be taken against any employee who violates safety rules or fails to perform his or her duties under this policy.

Safety Training

Safety training is regarded as indispensable and it is essential that every worker in the organisation is trained to perform their job safely and effectively. All workers will be trained in safe work practices and procedures as part of induction or when taking on a new role. Training may include advice on safe practice, guidance on health and safety policy and procedures, informal and formal training.

Training needs will be reviewed yearly at appraisal and any need for update training identified will be actioned.

Workplace Inspections

Regular inspections of the workplace will be conducted by Caroline Murphy. In addition inspections will be conducted where there are significant changes in the nature or scale of operations.

Work Equipment

DH Associates Limited will comply with the law as set out in the Provision and Use of Work Equipment Regulations 1998. It will endeavour to ensure all equipment is safe and suitable for the purpose for which it is used. All workers will be provided with adequate information and training to enable them to use equipment safely.

All equipment will be maintained in good working order and repair.

Any equipment that could pose a risk to the well being of persons will be restricted to authorised users.

Any faults found with equipment must be reported to their line manager.

Personal Protective Equipment

It is the policy of DH Associates Limited to comply with the law as set out in the Personal Protective Equipment at Work Regulations 1992.

All workers exposed to a risk to their health and safety whilst at work will be provided with suitable personal protective equipment. Prior to provision of protective equipment an assessment will be carried out as to its suitability.

All protective equipment provided will be maintained in good working order.

All workers provided with personal protective equipment will be given training and information on its use, maintenance and purpose.

- Employees must use all personal protective equipment provided to them in accordance with the training and instruction given to them regarding its use.

Employees who have been provided with personal protective equipment must immediately report any loss of or obvious defect in any equipment provided to their line manager.

Manual Handling Operations Regulations 1992

It is the policy of DH Associates Limited to comply with the law as set out in the Manual Handling Operations Regulations 1992.

Manual handling operations will be avoided as far as is reasonably practicable. Where it is not possible to avoid manual handling operations an assessment will be made taking account of the task, the load, the working environment and the capability of the person.

All steps will be taken to reduce the risk of injury to the lowest level possible.

Manual Lifting and Moving Guidance

- Lifting and moving of objects should always be done by mechanical devices rather than manual handling wherever reasonably practicable. The equipment used should be appropriate for the task at hand.
- The load to be lifted or moved must be inspected for sharp edges, splinters and wet or greasy patches.
- When lifting or moving a load with sharp or splintered edges gloves must be worn. Gloves should be free from oil, grease or other agents which might impair grip.
- The route over which the load is to be lifted or moved should be inspected to ensure that it is free of obstructions or spillage which could cause tripping or spillage.
- Employees should not attempt to lift or move a load which is too heavy to manage comfortably.
- Where team lifting or moving is necessary one person should act as co-ordinator, giving commands to lift, lower etc.

- When lifting an object off the ground employees should assume a squatting position, keeping the back straight. The load should be lifted by straightening the knees, not the back. These steps should be reversed for lowering an object to the ground.
- All staff will receive annual Moving and Handling training.

Display Screen Equipment

It is the policy of DH Associates Limited to comply with the law as set out in the Health and Safety (Display Screen Equipment) Regulations 1992.

All work stations will be risk assessed to ensure they meet regulations.

The risk to users of VDU screens will be reduced to the lowest extent reasonably practicable.

VDU screen users will be advised to take periodic breaks in their work.

Eyesight tests will be provided for VDU screen users on request.

VDU screen users will be provided with the basic necessary corrective equipment such as glasses or contact lenses.

All VDU screen users will be given appropriate training on the health and safety aspects of this type of work.

Control of Hazardous Substances

It is the policy of DH Associates Limited to comply with the law as set out in the Control of Substances Hazardous to Health Regulations 2002.

A risk assessment will be conducted of all work involving exposure to hazardous substance. This will be based on the manufacturers and suppliers health and safety advice and our own knowledge of the work process.

We will ensure that exposure of workers to hazardous substances is minimised and adequately controlled.

All workers in contact with hazardous substance will receive training and information on issue related to that type of work.

New or Expectant Mothers

It is the policy of DH Associates Limited to comply with the European Directive on Pregnant Workers.

A risk assessment will be carried out for new or expectant mothers. Where a risk is identified working conditions or hours will be adjusted so as to avoid the risk. Where this is not practical the employee concerned will be suspended on full pay.

Fire Safety

DH Associates Limited fire safety policy and procedures take account of fire hazards and comply with fire regulations

Reviewed 3 April 2019

Fire fighting equipment will be checked by an external expert annually.

All workers have a duty to report any fire, smoke or potential fire hazards to the emergency services.

All workers have a duty to conduct their operations in a way that minimises the risk of fire.

Fire Detection Equipment

Battery operated Smoke Detectors are located on each floor throughout the premises. There is a Stand Alone Fire Call Point, manually operated, 160 decibels, which can be heard clearly throughout the premises when activated.

Fire Fighting Equipment

Fire extinguishers are located at strategic points throughout the workplace. Workers are expected to tackle a fire themselves only if it would pose no threat to their personal safety to do so. If the situation is dangerous or potentially dangerous the employee should ring emergency services and evacuate the building.

Fire Exits

Fire exits are located at the front of premises.
Exit doors and corridors must never be locked, blocked or used as storage space.

Smoking

Smoking is prohibited within the building itself.

List of designated smoking areas:

- Front of Building

Emergency Evacuation Procedure

In the event of the fire alarm being activated, or in any other emergency situation (such as a bomb scare), all employees must leave the building by the nearest available exit and assemble at the designated assembly point.

The designated assembly points for each department are:

Department	Assembly Point
Company Wide	Behind ATS

Practice fire drills will be conducted every year to ensure employee familiarity with emergency evacuation procedures.

Accident Investigation & Reporting

It is the policy of DH Associates Limited to comply with the Reporting of injuries, Diseases and Dangerous Occurrences Regulations 2013 (RIDDOR95).

The company sees accident investigation as a valuable tool in the prevention of future incidents. In the event of an accident resulting in injury, a report will be drawn up by the line manager. The report will detail:

The circumstances of the accident including photographs and diagram wherever possible

- The nature and severity of the injury sustained
- The identity of any eyewitnesses
- The time, date and location of the incident
- The date of the report

All eyewitness accounts will be collected as near to the time of the accident as is reasonably practicable. Any person required to give an official statement has the right to have a lawyer or a representative present at the company's expense.

The completed report will then be submitted to and analyzed by the Management Board who will attempt to discover why the accident occurred and what action should be taken to avoid a recurrence of the problem.

All reports will be submitted to the company lawyers who will advise on liability, proceedings and quantum of damages. The lawyers will then submit the report to the company's insurance risk advisors for assessment.

A follow up report will be completed after a reasonable period of time examining the effectiveness of any new measures adopted.

Accident Procedure

The persons holding a current first aid certificate is responsible for the proper use and maintenance of each first aid kit.

The first aid kit is located in the kitchen cupboard.

Qualified first aiders are:

Name	Department
Jo Harding	Company

All cases of accident and disease must be reported to the line manager

Accident records are compiled and stored by Caroline Murphy, who is responsible for reporting cases of accident and disease to the relevant enforcing authority under the RIDDOR 2013 Regulations where applicable.

- Staff must complete a forecast on Outlook to be accessed by the office by Friday for the following week stating all their movements, appointment times and the location of all visits, it is their duty to notify the office of any changes that occur to their schedule, by telephone call to the office or direct into outlook.
- All staff are provided with a mobile phone. Which must be switched on at all times and any missed call to the office must be returned as soon as possible.
- ICE (in case of emergency, all staff must have a minimum of 2 ICE numbers recorded on their mobile phone.)
- Staff are responsible for following the rules and procedures for lone working
- Staff must report or identify any concerns they might have in respect of lone working.

Recruitment

DH Associates Limited work with vulnerable learners and service users, to comply with safeguarding the following procedures are in place:-

Applications Forms

- The application form states that any person applying for a position within DH Associates Limited must declare any criminal record
- The application form states that any person applying for a position within DH Associates Limited that will have contact with vulnerable learners will be subject to a DBS check.

Learner Health and Safety

DH Associates Limited is committed to ensuring through assessment and monitoring that all learners work is in as safe an environment as possible.

All workplaces will have a safety check prior to induction to ensure public liability insurance is in place and the workplace complies with all statutory health and safety requirements.

For learners funded by ESFA this will involve the completion of the HASPS documentation Standards 1- 9 for Employer workplace assessments. The outcome of assessment can be accepted, accepted with action plan or rejected. A central database will be maintained and monitored for Employer HASPs. This will state the level of risk and date for renewal; high risk 1 year, medium risk 2 years and low risk 3 years.

The completed HASPSS documentation will be sent to team managers. Team managers will be responsible for ensuring quality assuring the documentation and ensuring those employers with actions are reassessed.

For learners funded by EESFA a HASPS Standard 10 will be completed for each learner.

An audit trail will be used to ensure ESFA health and safety requirements are met. At a minimum this will include a record of each employer showing date of HASPS assessment, date of any action plan to be completed, date of reassessment, level of risk, date approved to have learners to, all learners with an employer, date HASP Standard 10 completed, date of any action plan to be completed, date of reassessment and actions closed off.

All learners will be assessed on their understanding of health and safety, signing in/out, fire, first aid and accidents procedures during induction and throughout the qualification and within the review process.

All learners will have an assessment of their learning or training needs in relation to health and safety through the skill scan and health & safety check. Any needs identified will be recorded, action agreed as to how these are to be met and learners responsibility to inform their manager

All learners will be informed of access to learning materials on health & safety through their e portfolio or e learning system . For management learners www.i-l-m.com/activate

All learners will be assessed on their understanding and practical application of health and safety during the course of their learning.

Learners with any concerns about health & safety practice within their workplace must report these to their manager.

Trainers with concerns about a learners health & safety practice must discuss this with the learner and agree how practice will be improved.

Trainers with concerns about health & safety practice in a learner's workplace must report these to their team manager. Under the concerns procedure next steps will be agreed and a record kept of these and the outcome.

Where there is a statutory duty to report DH Associates Limited will comply with this.

Health & safety of learners will be reviewed at the centre standardisation meeting.

DH Associates Limited has policies in place for learners in relation to bullying and harassment and safeguarding see appendix 2 & 3.

Accident and Investigation Procedure

Scope:

This procedure monitors the way in which accidents, involving learners on programmes managed by DH Associates Limited under Government / public funding, are reported and investigated. It also covers accidents involving visitors and staff.

Responsibility:

The Director of Quality & Compliance has overall responsibility for accident reporting and investigation for learners. A report is compiled and forwarded to the Managing Director.

Where the accident is reportable under RIDDOR, the following action will be taken:

ESFA Funded Programmes

If a fatal accident or major injury has occurred the Contract Manager should be informed immediately. The Education & Skills Funding Agency will be notified

For all other RIDDOR events the completed forms will be sent to the ESFA within 10 days of the accident being reported to DH Associates Limited.

The learner progress and review form includes a question on accidents to enable trainers to identify if learners have had a work related illness or accident.

The Director of Quality & Compliance will compile an internal report for Managing Director. This will identify the causes of the incident and any lessons to be learnt.

Sub-contracted provision

Where DH Associates Limited acts as subcontractor for another organisation we will notify the contracting organisation of any accident involving learners. We will investigate the accident in accordance with the contracting organisations requirements.

Where DH Associates Limited subcontracts to another organisation the contracting organisation must notify us immediately of any fatal accident or major injury to learners. For all other RIDDOR events we should be notified within 3 working days.

All investigations of accidents will be conducted in accordance with ESFA requirements and follow HSE guidance.

The Director of Quality & Compliance will compile an internal report for the Managing Director. This will identify the causes of the incident and any lessons to be learnt

Visitors and Staff

On receipt of information that an accident has occurred involving employees, visitors, customers or external suppliers the Director of Quality & Compliance for DH Associates Limited should be informed immediately.

If the accident is reportable; the Director of Quality & Compliance Quality Assurance Officer under RIDDOR will notify the RIDDOR centre.

They will also compile an internal report for the Managing Director; this will identify the causes of the incident and any lessons to be learnt.
